

# SPONSORSHIP OPPORTUNITIES

We are a collective of diverse architects, planners, and designers that strive to breakdown barriers around and within the built environment to overcome injustice and oppression in communities of color. Our mission, rooted in a rich legacy of activism, is to empower our membership to foster justice and equity in communities of color through outreach, community advocacy, professional development, and design excellence. We do this by providing professional development programming for our members, investing in local, minority-owned businesses through outreach and collaboration, promoting the achievements of our members through increased visibility of minority designers, supporting our local NOMA student chapters (NOMAS), including Morgan State University and the University of Maryland, and so much more!

By becoming a sponsor of Bmore NOMA, you are demonstrating your support of a more just and diverse future for the Baltimore architecture community. Connect with a network of over 3,700 professional and student members nationally, including more than 70 members in our own city.

There are many things in store for Bmore NOMA in 2026! Check out the many benefits your company will receive by supporting this important organization.

# FROM ADVOCACY TO ACTION: BMORE NOMA'S IMPACT

From career-building panel discussions and youth outreach, to legislative advocacy and local partner collaborations, Bmore NOMA had a big year. We grew our membership, strengthened the pipeline to professional licensure, and created spaces for connection throughout Charm City. In recognition of our efforts, Bmore NOMA was recognized as a 5-Star Chapter by NOMA National in 2025.

2025 proved to be a busy year for Bmore NOMA as we continued to advance our mission through impactful programming and strategic engagement. Check out some of the highlights below.

**K–12 Outreach:** Our flagship Project Pipeline Summer Camp introduced 18 Baltimore-area middle school students to architecture and design through a week-long immersive experience. Guided by six volunteer mentors, including practicing architects and emerging professionals, students explored design thinking, urban planning, and community problem-solving.

**Community Connection:** We brought members together at the annual summer Crab Feast on June 28, attracting over 50 attendees for networking and celebration in true Maryland fashion.

**Professional Support:** We continued to deliver high-value professional support through guided project tours, curated networking engagements, and accredited educational presentations. On April 29, Bmore NOMA members were granted an exclusive tour of BWI Thurgood Marshall Airport in collaboration with the Maryland Aviation Administration.

## Looking Ahead to 2026

In the coming year, Bmore NOMA is committed to scaling our impact by expanding K–12 programming, deepening partnerships with local schools and universities, and creating more opportunities for mentorship and professional development. With your sponsorship, we can continue to build a diverse and inclusive pipeline for the next generation of design professionals.
